

Current COVID-19 Protocols (Added on November 22nd, 2021)

Saint Andrew takes seriously a safe worship environment in light of COVID-19 concerns. Below is a current listing of all followed protocols each week to enhance safety and cleanliness on our church campus:

- Requirement of masks inside the building during worship times (we provide masks on site if you forgot to bring a mask with you to worship)
- Use of a disinfectant fogger before and after worship services
- Enough seating to spread out if you desire social distancing
- Placement of hand sanitizer pumps outside and inside the sanctuary
- Use of disposable communion kits for worship to limit touch of communion elements (those serving communion use medical gloves)

Saint Andrew follows the science in this communal pandemic and seeks to provide a safe and welcoming environment for all who come to our church campus.
